

North East Simulation Network Event

Thursday 21st March 2019

[Northumbria University, Coach Lane Campus](#)

(Photographs will be taken during this event for information and publicity purposes. If you would not be happy for us to use an image of you, please notify a member of the event staff.)

8.30 -9.15	Registration and Refreshments			Hall D
9.15-9.25	Welcome Professor Dianne Ford Pro Vice-Chancellor, Faculty of Health and Life Sciences			Hall A
9.25 -9.40	Opening Address Dr Kate Williamson – HEE NE Simulation Network Lead			
9.40–10.20	Opening Keynote Speaker Program Professor Bob Jarman Simulation Training in Point of Care Ultrasound Dr Julie Marden Turning simulation into successful Quality Improvement Projects			
10.20-11.00				
11.00-11.20	Refreshment break			Hall D
11.20-12.00	Breakout Session 1			
Hall A	Hall B NESN Shining Stars	KE Zone NESTFIG	KE HUB TECHnology Room	
Chair: JM This breakout session will showcase four of the regions collaborative undergraduate projects	This session will showcase the three prize winning North East presentations from the 2018 ASPiH conference	Gamification in Simulation Chris Taylor	Alternative Technology Session 1 & 2 Continuous CAE Mixed reality maternity demo NUTH Anaphylaxis Virtual Reality	
12.05-12.45	Breakout Session 2			
Hall A	Hall B NESN Shining Stars	KE Zone NESTFIG	KE HUB TECHnology Room	
Chair: MC This breakout session will showcase some of	ASME Masterclass Prize Mapping and interpreting fidelity in	The Escape Room Johnnie Guckion	Alternative Technology Session 1&2 Continuous Northumbria University Mixed reality/VR	

the regions collaborative undergraduate projects	simulation based medical education. Nony Mordi		Oculus Rift Breaking Bad News
--	---	--	----------------------------------

12.45-13.30 Lunch and Networking - Meet MELISSA Hall D

13.35- 14.20 Speaker - RESPOND Hall A
Inspector Steve Baker and Dr Chris Ince

14.20 – 15:00 Breakout session 3

Hall A	Hall B. Collaborative Training	KE Zone	KE HUB TECHnology Room
<p>Simulation in Undergraduate Examinations Mark Sudlow</p> <p>Sim is all well and good, but what is it really like?" Simulating the Medical Assessment Unit for Final Year Medical Students Ben Hammond</p>	<p>MELISSA #Get On Board Jill Cassells & Manager</p> <p>The National Deceased Donation Simulation Course as a change agent. Jill Featherstone and Helen Bentley</p>	<p>Poster Presentations Session A</p>	<p>NU2Sim - John Stratford</p> <p>Challenges of upgrading a Simulation Centre – Stephen Cooper</p>

15.00-15.20 Refreshment break Hall D

15.20-16:00 Breakout session 4

Hall A	Hall B Collaborative Training	KE Zone	KE HUB TECHnology Room
<p>Poster Presentations Session B</p>	<p>MUSIC Training (Multidisciplinary Simulation Training in Obstetrics) Denise Mace</p> <p>Roadside to Resus Simulation Training Jonathan Hurley Morris</p>	<p>Nominal Group Technique Debriefing Chris Taylor</p> <p>Open Access Video Tutorials in Ultrasound Peter Hewitt</p>	<p>It's all about the Moulage!</p> <p>Featuring the NESN Sim Cook Book!</p>

Closing Keynote Hall D

16:00 – 16:40
Professor Alison Machin – Northumbria University
Improving collaborative practice through Interprofessional simulation learning: clarifying concepts, challenging assumptions.

16.40-16:50

Closing address & Prizes

Kate Williamson - HEE NE Simulation Network Lead

Breakout sessions: Additional Information

	Breakout session 1
	<p>Undergraduate Multi-Disciplinary Simulation sessions in Paediatrics; Does delivering joint teaching sessions to nursing and medical students enhance experience of paediatric simulation in undergraduate teaching Presenters to be confirmed, Northumbria University</p> <p>Hospital Based Practice Inter-professional Simulation - Mike Kelleher, Northumbria University</p> <p>Finding the collaborative interface between medicine and dentistry: A pilot study on dental clinic collaborations - Professor Janice Ellis (School of Dentistry) & Dr Claire Wilson (NUTH)</p> <p>Modelling safe inter-professional practice across pharmacy, medicine and physician associate programs - Dr Scott Walker, School of Medicine, Newcastle</p>
	ASPIH 2018 Prize Winners
	<p>Primary care Emergencies: A multidisciplinary Approach - Nicky Jenkins</p> <p>Use of high fidelity simulation as an effective and acceptable method of training community palliative care specialist nurses: a pilot project. - Rowan Walmsley & Deepta Chum</p> <p>Intergrating simulation into the social work curriculum - Christina Dodds</p>
	Gamification in Simulation - Chris Taylor
	Breakout session 2
	<p>Engaging patients, carers and the public in simulation and student assessment - Jess Hardisty</p> <p>Collaborative simulation between midwifery and operating department practice. - Pete Brown, Senior Lecturer and Operating Department Practitioner.</p> <p>Undergraduate Social work – Simulation Case Study – Hospital discharge - Christina Dodds.</p>
	The Escape Room. Johnnie Guckion.

Short Communications Sessions

Breakout session 3	
SC1	Simulation based assessment in Undergraduate Examinations Mark Sudlow
SC2	"Sim is all well and good, but what is it really like?" Simulating the Medical Assessment Unit for Final Year Medical Students Ben Hammond, Alyson Ritchie, Laura Hemmer, Rebecca Oliver, Neil McNiven, Tim Smith
SC3	MELISSA – The mobile simulation suite Jill Cassells, Simon
SC4	The National Deceased Donation Simulation Course as a change agent. Jill Featherstone
Breakout session 4	
SC5	MUSIC Training Denise Mace
SC6	Road to Resus Dr Jonathan Hurley- Morris
SC7	Nominal Group Technique provide as an alternative framework for Simulation Debriefing - A Practitioner Inquiry Dr Chris Taylor
SC8	Open Access Video Tutorials in Ultrasound Dr Peter Hewitt, Andrew Nanapragasam

Poster Presentation Timetable

Breakout Session 3 - Knowledge Enhancement Zone	
PP1	<p>High Fidelity Simulation in Interdisciplinary Obstetrics Skills and Drills Emergency Training with 'Sim Mom': Evaluating the Impact of Pedagogic Intervention on Staff Confidence Levels'</p> <p>Dr Catherine Hayes, Mr Kim Hinshaw, Dr Robert Hogg and Dr Yitka Graham</p> <p>University of Sunderland and City Hospitals Sunderland NHS Foundation Trust</p>
PP2	<p>Paediatric part-task simulation for new starters – goodbye to “see one, do one, teach one”?</p> <p>Dr Niall Mullen</p>
PP3	<p>Acute scenarios simulation for Foundation Doctors: does it work?</p> <p>Phillip Jones</p>
PP4	<p>What are Emergency Medicine trainees' experiences and perceptions of the debriefing process used in simulation-based education?</p> <p>Dr Noel Renton</p>
PP5	<p>Improving confidence and competence of healthcare professionals' communication skills in difficult scenarios</p> <p>Riem Alkaissy, L Baxter, A Beniusyte, A Zornoza</p>
PP6	<p>Northern Radiology Academy Hybrid Teaching Approach</p> <p>Dr Peter Hewitt</p>
Break out session 4 – Hall A	
PP7	<p>Immersive hi fidelity simulation for postgraduate preceptorship nurses – seeking quality learning and behavioural change.</p> <p>John Lewandowski</p>
PP8	<p>Multidisciplinary simulation to influence widespread culture change in falls prevention</p> <p>Lucy Baxter, Catherine Peel, Dean Metz, Subashini Thirugnanosothy</p>
PP9	<p>Emergencies in Psychiatry a collaboration between NTW and Northumbria University</p> <p>Valerie Tippins, Jane Murray, Sarah Brown</p>
PP10	<p>Co-production and co-delivery of simulated learning in occupational therapy education – a collaborative model involving service-user, clinician, student and academic perspectives</p> <p>Helen Atkin, Gemma Bradley, Stephanie Whittington, Oliver Wood</p>
PP11	<p>Interprofessional bariatric training: - Safe manual handling techniques for healthcare students.</p> <p>Sarah Fairbairn</p>

Poster Submissions
All posters will be on display in the Level 1 corridor
Between the Breakout Rooms

P1	NESTFIG - A critical review of Simulation Teaching Fellow training across the North East of England Dr Chris Taylor
P2	Saving Trevor: Emergency Physiotherapy Karen Brewin
P3	An evaluation study of a blended learning approach to teaching neurological observations using Kirkpatrick's model Julie Derbyshire, Claire Ford, Stewart Stephenson
P4	Abstract submission for: Use of Clinical Simulation to Improve Management of Acute Coronary Syndromes Sally McKerron, Robbie Horton, Madeleine Brazzell, Jonathan Spiers, Mathew Hunsley, Lucy Baxter
P5	How does simulation training look chronologically for Medical trainees - a review of simulation based education from undergraduate to registrar grade training Dr Chris Taylor
P6	Sim-Man to NIV-Man Karen Brewin
